

XLI ANTARCTIC TREATY  
CONSULTATIVE MEETING  
BUENOS AIRES - ARGENTINA  
13 - 18 MAY 2018

ENG

Agenda Item:	ATCM 7a
Presented by:	IAATO
Original:	English
Submitted:	12/5/2018

## **IAATO Overview of Antarctic Tourism: 2017-18 Season and Preliminary Estimates for 2018-19 Season**

# IAATO Overview of Antarctic Tourism: 2017-18 Season and Preliminary Estimates for 2018-19 Season

Information Paper Submitted by the  
International Association of Antarctica Tour Operators (IAATO)

## **Introduction**

IAATO is pleased to provide estimates of Antarctic tourism from IAATO Operators for the 2018-19 season and the statistical data compiled from Post Visit Reports for the 2017-18 season.

These figures are based on information provided to IAATO by its Operators as of 27 April, 2018. These numbers reflect only those travelling with IAATO Operator companies and do not include those individuals taking part in research projects that are being supported by IAATO Operators.

The 2017-18 season (51,707 persons) was higher (by 5,899 visitors) than the forecast in ATCM XL IP163 *IAATO Overview of Antarctic Tourism 2016-17 and Preliminary Estimates for 2017-18 Season*. Noting the under-estimate from last season, which is mostly explained by an underestimate of cruise-only passengers, the estimates for 2018-19 have been refined to endeavour to be as accurate as possible; and indicate that passenger numbers will rise to circa 55,764 individuals.

## **1.0 Overview**

This section focuses on the 2017-18 season and additional information on previous seasons, including activities and landing site use, will be posted on the IAATO website ([www.iaato.org](http://www.iaato.org)) under Guidelines and Resources, Tourism Statistics. Additionally, selected site-specific information is available in ATCM XLI IP72 *Report on IAATO Operator Use of Antarctic Peninsula Landing Sites and ATCM Visitor Site Guidelines, 2017-18 Season*.

### **1.1 IAATO Member Activities**

IAATO's Membership continues to incorporate the majority of private-sector tour operators. All commercial SOLAS passenger ship operators that we are aware of conducting tourism activities in the Antarctic Treaty Area are currently members of IAATO. All of IAATO Operators have submitted Environmental Impact Assessments or equivalent operational documents to their appropriate National Authority.

Final analysis of Post Visit Reports for the 2017-18 season indicates that there was a 17% increase in the overall tourism statistics from the 2016-17 season. Shipborne tourism remains dominant on the Peninsula and there were no IAATO Operator over-flights to the Antarctic continent.

### **1.2 Scope of Commercial Tourist Activities for Seaborne Tourism**

Commercial tourism activities by IAATO Operators included the operation of small boats (Zodiac, Polar Cirkel Boat, RIB, Naiad, etc.), shore landings, and to a lesser extent, kayaking, mountain climbing, SCUBA diving, submersible diving, snorkeling, stand-up paddle boarding, skiing, snowboarding, camping (including short overnight stays), running events, helicopter operations, underwater ROVs and Unmanned Aerial Vehicles (UAVs). These activities were undertaken in line with IAATO policies and guidelines. Most of these activities have taken place for the past decade with some dating back to the beginning of Antarctic tourism in the late 1960s.

*Table 1. Historical Statistics of Recorded Seaborne Tourism (including Cruise Only)*  
*Based on data provided by companies who submitted Post Visit Report Forms and from other sources where available.*

Year	No. of operators	No. of ships & yachts	No. of voyages	No. of passengers making landings	No. of cruise only passengers
1992-93	10	12	59	6,704	
1993-94	9	11	65	7,957	
1994-95	9	14	93	8,098	
1995-96	10	15	113	9,212	
1996-97	11	13	104	7,322	
1997-98	12	13**	92	9,473	
1998-99	15	15**	116	9,857	
1999-00	17	21**	154	13,687	936
2000-01	15**	32**	131	12,109	0
2001-02	19**	37**	117	11,429	2,029

2005-06	47**	44**	249	25,167	4,632
2006-07	42**	47**	268	28,622	6,930
2007-08	48	55	308	32,637	13,015
2008-09	44	53	290	26,921	10,652
2009-10	44	51	239	21,622	15,020
2010-11	41	47	223	19,065	14,373
2011-12	36	41	234	21,131	4,872
2012-13	39	45	258	24,892	9,070
2013-14	42	51	283	27,374	9,670
2014-15	37	44	268	26,812	9,459
2015-16	38	48	286	29,960	8,109
2016-17	38	47	298	36,440	7,475
2017-18	44	50	344	42,576	9,131
2018-19	44 ***	51 ***	350 ***	*** 45,864	*** 9,900

\*\* Includes IAATO and non-IAATO member-operated yachts (sailing and motor) where the information was available.

\*\*\* Based on pre-season estimates not actual statistics

The vast majority of tourism voyages operate in the Antarctic Peninsula region during the five-month austral summer season (from November to March), departing from Ushuaia, Argentina or, to a lesser extent, from other ports north of the Antarctic Treaty Area.

### 1.3 Nationalities

The Post Visit Report Forms submitted to IAATO indicate that more than 100 different nationalities were represented by tourists who visited the Antarctic during the 2017-18 season.

Table 2: Percentage of Passenger Nationalities

Nationality	Percentage of Total 17-18 Season
United States	33.0%
China	15.8%
Australia	11.2%
Germany	7.3%
United Kingdom	7.0%
Canada	4.5%
France	4.0%
Switzerland	2.0%
Netherlands	1.6%
Others	13.9%

## 1.4 Commercial Operated Activities Conducted from Expedition Vessels and Yachts

Detailed information of the activities conducted during the 2017-18 season are listed in Appendix 1, and anticipated activities for the 2018-19 season can be found in Appendix 2. All IAATO Operators activities are permitted or authorized through Environmental Impact Assessments, Advance Notifications and, where relevant, Waste Management Permits, submitted in advance of the season. All activities are planned to have no more than a minor or transitory impact on the Antarctic environment and nearly all activities have been conducted from expedition vessels and yachts for more than a decade.

## 1.5 Commercial Deep Field Tourism

Four IAATO Operators conducted deep field tourism activities during the 2017-18 season:

- Antarctic Logistics & Expeditions (ALE) – (originally named Adventure Network International) one of the founding members of IAATO in 1991 – conducted activities for the 32<sup>nd</sup> consecutive season.
- The Antarctic Company (TAC) operated in Antarctica for the 13<sup>th</sup> consecutive season and 9<sup>th</sup> as an IAATO Operator.
- White Desert (WDL), which operated in Antarctica for the 12<sup>th</sup> consecutive season and 7<sup>th</sup> as an IAATO Operator. Early season flights and logistics for WDL are coordinated through TAC, subsequently by WDL.
- Arctic Trucks, which joined IAATO at the end of the 2013-14 season has operated in the Antarctic as a contractor since the 1990's and as an Operator since the 2014-15 season.
- ALE operated out of Punta Arenas, Chile; TAC and WDL operated out of Cape Town, South Africa. Arctic Trucks supported operations working from ALE and Novo camps.

The four companies employed experienced guides; over 80% of which have worked previously in Antarctica. Staff and guides assist in the preparation of policies and guidelines; and ensure their implementation in the field.

### 1.5.1 Visitor & Staff Numbers

Details of the visitor numbers can be found in the appendices below. Deep field operators usually maintain a higher client to staff ratio than is typical for seaborne tourism– often in the region of 1 guide to every 3 clients. The exception is with solo expeditions, for example during South Pole Ski Expeditions, where the clients are supported remotely and closely through communication protocols, air drops and agreed search and rescue plans, etc.

### 1.5.2 Aircraft Operations

ALE:

- One Ilyushin IL-76 was used to ferry general and hazardous cargo, wastes, fuel, staff, guides and passengers between SCCI Punta Arenas, Chile, and SCGC Runway 18M Union Glacier.
- Two ski-equipped DHC-6 Twin Otter aircraft and one ski-wheel configured Basler DC3-PT67 aircraft were used for flights within Antarctica and to provide medical evacuation support throughout the season.

TAC:

- One Ilyushin IL-76 was used to ferry general and hazardous cargo, wastes, fuel, staff, guides and passengers between Cape Town, South Africa and Novo Airbase.
- One ski-equipped DHC-6 Twin Otter aircraft and one Basler BT-67 aircraft were used for flights within Antarctica and to provide medical evacuation support throughout the season.

White Desert:

- One Ilyushin IL-76 was used to ferry general and hazardous cargo, wastes, fuel, staff, guides and passengers between Cape Town, South Africa and Novo Airbase
- One Falcon 7X for flights between Cape Town and Novo
- One Gulf Stream G550 for flights between Cape Town and Wolf's Fang
- One Gulf Stream G650 for flights between Cape Town and Wolf's Fang
- One Boeing 757, for flights between Cape Town and Wolf's Fang

- One Basler BT-67 aircraft used for flights within Antarctica

### 1.5.3 Ground Transport

- ALE operated a number of tractor traverses, primarily for more efficient transport of fuel and cargo, and to support scientific activities.
- ALE, TAC, WDL and Arctic Trucks all used modified wheel vehicles.

### 1.5.4 Camps (Primary)

- ALE Union Glacier Camp opened October 18, 2017 and closed January 30, 2018.
- TAC Novo Camp opened October 27, 2017 and closed on January 31, 2018.
- WDL Wolf's Fang Camp opened November 01, 2017 and closed on January 16, 2018.

### 1.5.5 Programs and Activities

Activities including the operation of standard programs, the organization and operation of private expeditions, and logistical support of other expeditions for the 2017-18 season, are outlined in the table below. Total numbers participating include clients from all four IAATO Deep Field Operators. Note that some clients participated in multiple programs.

*Table 3: Programs and Participant Numbers (clients) for 2017-18 season  
(note some participants may take part in several programs)*

<b>Program</b>	<b>No. Participating</b>
Emperor Penguin Colony Visits	94
Deep Field Experiences (Camping, skiing, mountaineering, skydiving, cycling, etc.)	88
Deep Field Flights (e.g. to Pole of Inaccessibility)	0
South Pole Fly-in	100
South Pole Ski Expedition	18
South Pole Motorised Expedition	3
Last 1-2 Degree Expedition	44
Antarctic Crossing	7
Vinson Massif	145
Marathon	124

### 1.6 Air Operations – Over-flights operated by IAATO Operators.

For the 2017-18 season, there were no over-flights of Antarctica by IAATO Operators.

## 2.0 Preliminary Estimate of Planned Activities for the 2018-19 Season

Appendix 3 illustrates a breakout of tourism categories that are projected for the 2018-19 season.

IAATO Operators continue to refine the detail of their activity reporting. Ship-based tourism is expected to again include the operation of small auxiliary boats, shore landings, kayaking, mountain climbing, running events, SCUBA diving, snorkelling, skiing, snowboarding, snowshoeing, stand-up paddle boarding, camping (including short overnight stays), helicopter operations, use of Unmanned Aerial Vehicles and underwater remote operated vehicles (ROVs).

For the 2018-19 season, those tourism categories where passengers land ashore – traditional small and medium-size expedition ships and yachts, all carrying 500 or fewer passengers – are expected to reach 45,103 passengers. The increase is due to two principle factors: a slight growth in air/cruise tourism which is projected to increase to 4,188 clients; and the introduction to the market of four new vessels (*Kapitan Khlebnikov / World Explorer / Scenic Eclipse / L'Austral*) all to the Peninsula area.

Cruise-only tourism, aboard 500-plus passenger vessels with no passengers landing ashore, is projecting to be 9,900 passengers. Air-land tourism, which is conducted by the four IAATO Operators that provide deep field excursions and expeditions, is projected to be 761 visitors.

No over-flights by IAATO Operators are expected during the 2018-19 season.

IAATO Operators will continue to work together to coordinate activities in advance, so that operations are conducted in a safe and environmentally responsible manner, and that tourism activities are planned to have no more than a minor or transitory impact on the Antarctic environment.

## 3.0 Tourism Trends

A trends chart showing the change in IAATO Operator landed passengers, dating from the 1992-1993 season and including estimates for the 2018-19 season, can be found in Appendix 1 of this overview.

## 4.0 Tourism Statistics

The following data sheets are being prepared for inclusion in the IAATO website (<http://www.iaato.org>) and can be found as a link “Tourism Statistics” under the category of Tourism Overview:

- Tourists by Nationality (Landed)
- Tourists by Nationality (Air and Cruise)
- Tourists by Nationality (All)
- Tourist Nationalities by Vessel
- Trends 1992-2018
- Number of Visitors (tourists, staff, crew) per site per vessel-All Antarctic Sites
- Number of Visitors (tourists, staff, crew) per Site per Vessel-Continental Sites
- Number of Tourists per Site Per Vessel-All Antarctic Sites
- Number of Tourists per Site per Vessel
- Number of Tourists per Site Per Vessel-Peninsula Sites
- Number of Visits per Site per Activity

### Appendices:

- Appendix 1: Overview of Antarctic Tourism 2017-18
- Appendix 2: Preliminary Estimate of Antarctic Tourism 2018-2019

## Appendix 1: Overview of Antarctic Tourism 2017-18

Based on information provided by IAATO Members to the IAATO Secretariat as of April 27, 2018
